MARK JOSEPH M. FULMENTERA

SOFTWARE DEVELOPER

CONTACT

- +639760714191
- makifulmentera@gmail.com
- P9 B28 L14, Wellington Place, General Trias Cavite

EXPERTISE

- Programming Languages: C#, Java, JavaScript (React.js, Next.js, Express.js, Vue.js).
- Web Development: ASP.NET (Web Forms, MVC, Web API), modern front-end frameworks.
- Mobile Development: Android development using Java
- Database Administration (DBA): SQL Server (indexing, performance tuning, query optimization, monitoring, stored procedures).
- System Development: Full-stack application design, development, and maintenance.
- Database Management: Schema design, data modeling, backup & recovery strategies.
- Software Development Practices: Version control (Git), debugging, testing, and deployment.
- UI/UX Development: Responsive, modern, and user-friendly design implementation.
- Problem-Solving & Optimization: Enhancing system efficiency, troubleshooting, and refactoring legacy code.

WORK EXPERIENCE

Software Developer

ePrime Business Solutions Inc.   April 2025 - Current

- Design, develop, and maintain web and desktop applications using C#, ASP.NET, and Java.
- Build and optimize front-end web applications with ReactJS, NextJS, VueJS, and Express.
- Develop and deploy Android mobile applications using Java.
- Ensure application security, scalability, and performance through code optimization and best practices.
- Conduct testing, debugging, and troubleshooting to ensure system reliability and efficiency.
- Maintain version control and collaborate on projects using Git/GitHub.
- Participate in system design, documentation, and deployment processes.
- Provide technical support, bug fixes, and continuous improvements to existing systems and APK.

System Specialist

ePrime Business Solutions Inc.   June 2023 - April 2025

- In-charge with network, database and software set up.
- Provide technical guidance for the development and troubleshooting of computer systems.
- Monitor systems in order to identify potential system errors and document instructions and other system information
- Proficient in SQL scripting using Microsoft SQL Server.
- Providing a solution on the needed and requested condition by creating SQL script.
- Creating a mandated report through SQL scripting.
- Modifying and manipulating data through backend.
- Analyzing data through backend scripting.
- Fixing unresponsiveness on system by managing and monitoring the running query on the script and the server.

EDUCATION

- Cavite State University - Silang Campus   2018-2023
- STI College Dasmarinas   2016-2018

ACADEMIC AWARD

- 1st-Runner up at Tagisan ng Talino - HACKATON 2018 at STI College Dasmarinas
- Representative of STI Dasmarinas at HACKATON 2018
- Graduated with Honors at STI College Dasmarinas

PERSONAL SKILLS

- Effective time management to handle multiple projects and deadlines.
- Strong collaboration and teamwork skills in cross-functional development environments.
- Continuous learner with passion for improving technical and professional skills.
- Strong problem-solving and analytical thinking for debugging and optimizing systems.
- Attention to detail in coding, testing, and database management.
- Ability to adapt quickly to new technologies and frameworks.
